

SYSTEM V

FULL-FEATURED CRITICAL PROTECTION

For high-volume shops that service OEM cars, SUV's, and light to medium truck applications, the John Bean® System V is a great addition to your workflow.

The pneumatically locking tilt-tower configuration easily moves out of the way to ergonomically allow placement of small to large wheels.

Once the tire is on the turntable, the self-adjusting four-jaw clamp secures the wheel clamps with power from twin cylinders.

Comprehensive pneumatic bead assist comes standard and provides an additional suite of features that make changing ultra-high performance and run-flat tires a snap.

Traditional design, with modern productivity-boosting features, makes the System V a great addition to your shop.

Be FAST

TILT-TOWER TIRE CHANGER

TILT-TOWER

The pneumatic Tilt-Tower post provides maximum clearance for installing the tire on the turntable.

ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tires.

TOOL BOX WITH INTEGRATED AIR PRESSURE GAUGE

The tool box provides a fixed storage area with four convenient shelves for tools, valves, and accessories, with an integrated air pressure gauge.

ADJUSTABLE CLAMPING JAWS

Self-centering nylon-covered clamping jaws protect the wheel and provide a secure grip.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.

SYSTEM V

PNEUMATIC VERTICAL ARM

Fast and ergonomic, the pneumatic vertical arm facilitates positioning of the mounting head on all wheels.

PNEUMATIC BEAD ASSIST

Our three-piece Pneumatic Bead Assist features a top roller, pressing foot, and lifting disk, to make it simple for a single technician to mount and demount low-profile and high-performance tires.

TABLETOP BEAD SEATER

A direct burst of compressed air comes through the clamping jaws to facilitate bead seating.

TECHNICAL SPECIFICATIONS

Max Rim Diameter	26" 66cm
