

V1100

OPTIMUM MOBILITY EFFECTIVE CAPABILITY

Utilising advanced Bluetooth® connected pods, the John Bean® V1100 gives shops a simple, on-car alignment solution that offers advanced alignment capabilities while taking up minimal shop space.

The John Bean V1100 is designed to be a simple, effective solution for performing core alignment services.

Durable lightweight magnesium pods attach directly to the tires and include a balance weight that ensures the pod is always level.

These impact-resistant pods communicate via Bluetooth, which offers an extended range of up to 100 meters (330 feet), even in areas of high electrical interference.

The mobile cabinet is easy to move around the shop and doubles as a viewing station for alignment procedures and a charging base for the magnesium pods.

Be EQUIPT

MOBILE WHEEL ALIGNMENT SYSTEM

ON-CAR SYSTEM

By leveraging a wireless communication system with Bluetooth connectivity, these cordless pods are connected directly to the tyres to provide optimal flexibility and mobility.

RECHARGEABLE BATTERIES

Our battery notification system alerts the technician when the pod needs to be charged. Longer battery life ensures that you can continue to perform alignment procedures without having to stop and recharge.

UNIQUE SYSTEM

The rear wheel camera pods allow the technician to make front toe adjustments without blocking the camera.

EZ-TOE

Our advanced software makes it easy to quickly and accurately measure toe angle, allowing technicians to turn the wheel to access challenging adjustment points without using a steering wheel holder.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.

JohnBean®

V1100

BLUETOOTH CONNECTION

The wireless Bluetooth system is more reliable than standard WiFi and has less interference with a range of 100 meters (330 feet).

LIGHTWEIGHT AND DURABLE MAGNESIUM PODS

These impact-resistant pods are built to withstand heavy usage and the innovative balance weight feature ensures that the pod is always level.

X-LIGHT™ WHEEL CLAMPS

X-Light™ Wheel Clamps with camera pods and targets are long-lasting, lightweight, and easy to transport from bay to bay.

COMPLETELY MOBILE

Easily move the V1100 to anywhere in your shop with a console that doubles as a viewing and charging station.
