

12K 4-POST

VERSATILE SERVICE COMPACT SYSTEM

Whether you work on tiny commuter cars or large pickup trucks, the John Bean® 12k Four-Post Alignment Lift has the muscle you need to do the job quickly and easily.

Perform precise vehicle alignment services without worrying about shake or sway with our brake-formed front columns and traverse beam design that spreads vehicle weight efficiently across the structure for ultimate stability.

The Filter/Regulator/Lubricator (FRL) provides a filtered and lubricated supply of air to the system, reducing the need for maintenance and minimizing productivity-robbing breakdowns.

The 12k Four-Post Alignment Lift from John Bean is an easy solution for your shop's alignment needs.

Be EQUIPT

FOUR-POST ALIGNMENT LIFT

SMALL FOOTPRINT

Minimize usage of shop floor space with a small footprint that's small in size but big in capability.

CLOSED-FRONT CROSSBEAM

Work more and worry less with a closed front crossbeam that ties the lift structure together for improved stability.

LOW PROFILE

Load low-profile vehicles without trouble on our ultra-low-profile decks.

SLACK CABLE RETENTION SYSTEM

Forget maintaining and worrying about excessive cable slack with our slack cable retention system that manages slack while the lift is locked.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
