

20K 2-POST

ROBUST SYSTEM QUALITY SERVICE

When looking to lift some of the largest, more robust vehicles on the road, professionals can rely on the John Bean® 20k Two-Post Lift to get the job done right.

With 20,000 pounds of lifting power, this sturdy piece of equipment gets the job done with an oversized steel pulley specifically designed to reduce internal stress and provide increased durability. Ultra-tall, 60-inch lifting carriages optimally balance the long-reaching 62-inch lift arms for ideal weight distribution in the columns. The screw pads are a standard accessory and work with a wide range of vehicles.

Safety is a top priority with a single-point, air-actuated safety lock release that allows technicians to relieve pressure in both columns simultaneously.

If you work on large, heavy-duty, commercial, or municipal fleets - this 20k Two-Post Lift is a lift that will get the job done day in and day out.

Be **PRECISE**

TWO-POST AUTOMOTIVE LIFT

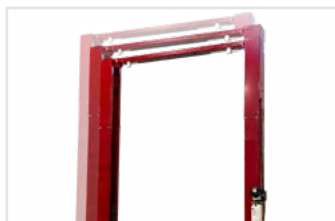

HIGH CAPACITY LIFTING

Powerful hydraulic components allow technicians to work on vehicles that range from a compact sedan to some of the most oversized and heaviest vehicles on the road with a single lift.

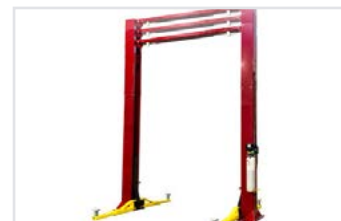

TWO-STAGE FRONT & REAR ARMS

Heavy-duty two-stage front and rear arms enable a wide range of symmetric lifting.

VERSATILE INSTALLATION OPTIONS

Installation is available in one of three height and width options to provide the most versatility for your shop's service needs; choose from 13.5-foot, 14-foot, or 14.5-foot height installation and 10-foot, 10.5-foot, or 11-foot width installation.

ADJUSTABLE HEIGHT EXTENSION

Increase your service capability to work on taller vehicles, including the largest trucks, SUVs, and cargo vans, with our two-foot column height extension.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
