

EELR549 12K

CONSISTENT PERFORMANCE RELIABLE POWER

For shops that work on various cars and trucks, looking for the ultimate power and precision in a superior two-post design, the John Bean® EELR549 12k Two-Post Lift can stand up to the demand.

Ready to handle loads of 12,000 pounds, the John Bean EELR549 12k Two-Post Lift can handle a wide variety of light to medium-duty applications for today's modern shop, providing symmetric lifting capability with adjustable height for higher profile vehicles.

Heavy-duty two-stage front and rear arms work with a standard set of screw pads and adapters to lift most vehicles in mere seconds. A padded overhead shut-off bar instantly stops the lift to protect the vehicle from damage, and rubber guards on the columns provide additional protection for car doors.

The John Bean EELR549 12k Two-Post Lift will get the job done, day in and day out.

Be EQUIPT

TWO-POST AUTOMOTIVE LIFT

TWO-STAGE ARMS

Heavy-duty two-stage arms enable a wide range of symmetric lifting.

ADJUSTABLE HEIGHT EXTENSION

Increase your service capability to work on taller vehicles, including the largest trucks, SUVs, and cargo vans, with our two-foot column height extension.

SHUT-OFF BAR

The safety shut-off bar prevents damage to the top of a vehicle, immediately stopping the lift when it is touched.

ADJUSTABLE URETHANE SCREW PADS

Heavy-duty polyurethane pad provides ample surface area to the vehicle frame and the telescoping feature provides simple access to factory-recommended lift points.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
