

T2500-24

RELIABLE RESULTS ESSENTIAL PROTECTION

The T2500-24 from John Bean® brings dependable power and ergonomic design to busy automotive workshops.

Its rugged tilt-back post design delivers consistent torque and reduced stress, even when working with stubborn or hard-sidewall tires. Plastic-protected mount and demount tools safeguard alloy wheels, while the self-centering four-jaw turntable—driven by twin clamping cylinders—ensures a secure hold every time.

Built with technician safety in mind, the T2500-24 features a strategically positioned bead breaker pedal that reduces the risk of accidental activation. A pressure limiter, integrated air filter, and oil reservoir maintain performance and extend machine life.

With its durable construction, smart safety features, and operator-friendly controls, the T2500-24 is a strong, reliable solution for modern tire service needs.

Be FAST

TILT-BACK TIRE CHANGER

TILT-TOWER

The pneumatic Tilt-Tower post provides maximum clearance for installing the tire on the turntable.

PNEUMATIC VERTICAL ARM

Fast and ergonomic, the pneumatic vertical arm facilitates positioning of the mounting head on all wheels.

ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tires.

ADJUSTABLE CLAMPING JAWS

Self-centering nylon-covered clamping jaws protect the wheel and provide a secure grip.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.

T2500-24

TECHNICAL SPECIFICATIONS

Max Tire Diameter	39" 1000mm
Max Tire Width	13" 330mm
Max Rim Width	12" 304mm
Outer Clamping Range	10" - 24" 254 - 609mm
Inner Clamping Range	12" - 24" 304 - 609mm
Chuck Speed	6.5 rpm
Compressed Air Supply	8 - 12 bar 120 - 170 psi
Power Supply	230V, 1Ph, 50/60Hz, 0.75kw 400V, 3Ph, 50Hz, 0.5kw

STANDARD ACCESSORIES

- Tire mounting lever
- Pressure gauge bar
- Plastic rim protection
- Roller - Tool

OPTIONAL ACCESSORIES

- Pneumatic Bead Assist
