

T900-24

RUGGED DESIGN LASTING DURABILITY

The John Bean® T900-24 swing-arm tire changer delivers reliability, protection, and performance in a shop-friendly footprint.

Nylon-protected mount and demount tools safeguard wheels during operation, along with a self-centering-clamp design with covered grooves.

The pedal-operated bead breaker is thoughtfully positioned with a guard to reduce the risk of accidental activation—adding an extra layer of safety.

With features that promote durability and technician confidence, the T900-24 is a space-efficient workhorse ready for the modern shop.

Be EQUIPT

SWING-ARM TIRE CHANGER

SWING-ARM

The mounting arm swings to the side so that the machine can be installed in a space-saving way directly near a wall.

ADJUSTABLE CLAMPING JAWS

Self-centering nylon-covered clamping jaws protect the wheel and provide a secure grip.

ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tires.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
