

T8026

SUPREME VERSATILITY ULTIMATE PERFORMANCE

Work on a variety of heavy-duty tube-style, and tubeless tyres found on everything from buses to tractor-trailers with the John Bean® T8026.

The John Bean T8026 allows a single technician to work on tyres and OTR wheel assemblies up to 59 inches in maximum diameter and 27.5 inches in wheel diameter safely and easily, by utilizing a unique remote-control console.

Grip wheels with authority with a two-speed, self-centering, four-jaw, hydraulically operated chuck.

To boost productivity, we've designed the T8026 with a patented all-in-one bead breaker, mount and demount head assembly that makes quick work of even the toughest tyres.

Work smarter, not harder with the John Bean T8026.

Be FAST

HEAVY-DUTY TYRE CHANGER

MOBILE CONTROL UNIT

Wired remote control console allows one technician to safely monitor all tyre changing operations.

NON-RETURN VALVE

A non-return safety valve prevents the chuck from opening in case of a sudden hydraulic pressure drop.

BEAD BREAKER

The bead breaker disk is equipped with a special tilting system to assist bead breaking and ensure the disk is in the optimum position.

CHUCK

The self-centering hydraulic chuck is of solid design to accommodate wheels up to 1.000 kilograms (2.205 lbs).

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.
