

# 16K 2-POST

## FULL FLEXIBILITY PURE POTENTIAL

The John Bean® 16k Two-Post lift can handle loads of up to 16,000 pounds, an essential component for shops that regularly work on large or heavy-duty vehicles.

Heavy-duty steel pulleys work to reduce the load on equalization cables, as the robustly constructed, extra-long 62-inch arms safely lift the vehicle, effectively distributing weight across the columns. A standard set of screw pads and adapters ensures accommodates pick-up points for nearly every type of vehicle on the market. We've designed a padded overhead bar that instantly stops the lift, protecting the vehicle from unintentional damage. Quickly and safely disengage both columns simultaneously with an easy-to-use, single-point airlock release.

Rugged and ready to get the most demanding jobs done right, the 16k Two-Post is the lift you need in your shop.

## TWO-POST AUTOMOTIVE LIFT

### THREE-STAGE FRONT & REAR ARMS

Accommodate a wide range of vehicles with our three-stage front and rear arms.

### VERSATILE INSTALLATION OPTIONS

Installation is available in one of three height and width options to provide the most versatility for your shop's service needs; choose from 13.5-foot, 14-foot, or 14.5-foot height installation and 10-foot, 10.5-foot, or 11-foot width installation.

### LOW-PROFILE URETHANE PADS

Low-maintenance, heavy-duty urethane pads are built to last and accommodate a wide range of manufacturer-recommended vehicle lifting points.

### ADJUSTABLE HEIGHT EXTENSION

Increase your service capability to work on taller vehicles, including the largest trucks, SUVs, and cargo vans, with our two-foot column height extension.

*WHEN GOOD ENOUGH ISN'T ENOUGH, JB.*
