

# T5300T

## SENSIBLE SYSTEM ESSENTIAL PERFORMANCE

Built to get the job done with less hassle, the John Bean® T5300T is a powerful machine that performs core tire-changing duties with ease.

Utilizing a proven tilt-tower design, the T5300T provides ample clearance to easily load tires onto the turntable.

The T5300T uses an ergonomically positioned pedal that operates a powerful, easy-to-operate bead breaker shovel to break the bead on traditional high-aspect tires easily.

Practical and effective, the T5300T is a tilt-tower tire changer that is capable and ready to go to work.

## TILT-TOWER TIRE CHANGER

### TILT-TOWER

The pneumatic Tilt-Tower post provides maximum clearance for installing the tire on the turntable.

### ON-FLOOR BEAD BREAKER (PEDAL-OPERATED)

Traditional side-shovel bead breaker with ergonomic pedal-control positioned away from the shovel; the fastest solution for standard, soft sidewall, and high-aspect tires.

### TABLETOP BEAD SEATER

A direct burst of compressed air comes through the clamping jaws to facilitate bead seating.
