

# ONE PERSON TEST LANE

CLASS IV LOW PROFILE,  
CLASS IV STANDARD  
CLASS VII STANDARD

Do you already have an MOT bay in your workshop that you're looking to upgrade? The John Bean® One Person Test Lane gives you an ideal opportunity to do so.

If you upgrade your MOT Bay to a One Person Test Lane you will be able to dramatically reduce your labour costs per MOT.

That means you'll only need to take one technician into the bay to carry out the test rather than two, resulting in better efficiency and productivity in your workshop.

If you have an existing standard MOT bay why not consider an upgrade to a John Bean One Person Test Lane, and save labour costs?

A John Bean One Person Test Lane can use one of our standard ATL lifts or we have a special version that fits the majority of existing MOT lift recesses.
