

V2200

CORE PERFORMANCE QUALITY SERVICE

Advanced, customisable software technology combined with easy-to-use features and a robust design makes the John Bean® V2200 an ideal workhorse for general repair shops looking to boost their alignment revenue.

The John Bean V2200 represents an ideal balance of budget and technology. We've combined our professional, easy-to-use software with productivity-enhancing features like customisable alignment procedures, and custom specification entry to help technicians work on a wider array of vehicles without sacrificing speed or accuracy.

High-resolution cameras are height controllable from the keyboard and work in concert with our AC100 wheel clamps for wheel diameter up to 24-inches.

Helpful features like VODI™ and EZ-Toe make working through core alignment procedures quick & easy for technicians of all skill levels.

Be EQUIPT

FIXED BEAM IMAGING WHEEL ALIGNMENT SYSTEM

CUSTOMISABLE ALIGNMENT PROCEDURES

Easily modify alignment procedure flow by selecting the steps needed to perfectly meet the exact needs of your shop.

MODIFIED VEHICLES

Ensure accurate alignment for vehicles that have modified OEM specifications with our advanced alignment software that allows for effortless changes in procedure flow.

MOVEABLE XD CAMERA BEAM

Using the optional moveable camera support, the camera beam can be adjusted up and down with the keyboard.

MOBILITY KIT

The optional kit allows you to mount the cross-beam to the cabinet for flexible installation and usage, enabling you to move the system around the shop freely and out of the way as needed.

WHEN GOOD ENOUGH ISN'T ENOUGH, JB.

John Bean

V2200

VODI™

Our exclusive Vehicle Orientation Directional Indicator (VODI) guides technicians through the measurement process when the monitor is not in view, with simple, easy-to-follow red and green LED lighting; reducing the amount of time spent walking back and forth from the vehicle to the aligner.

XD CAMERA TECHNOLOGY

Video speed cameras constantly monitor the alignment and immediately detect common environmental conditions or vehicle problems that can cause maladjustments.

AC100 CLAMPS

Fast and easy to use with self-centring design, two-sided claws provide reliable clamping, even over hub caps.

TECHNICAL SPECIFICATIONS
